

## MPNAVTEX-P Passive Receiving Antennas

### General Features

- **Antenna structure:** Epoxy fiberglass
- **Finishing:** Polyurethane paint
- **Ferrule material:** Chrome plated brass

### Electrical Features

- **Frequency:** 490/518 KHz
- **Polarization:** Vertical
- **Cable or Connector:** PL Female

### MPNAVTEX-P Features

- **Length:** 0,50 meter
- **Weight:** 1,0 kg
- **Bottom diameter:** 28 mm
- **Fittings:** On pipe tube 1" G thread
- **Base torsion force:** 5 N at max wind speed
- **SWR:** See diagram
- **Impedance:** 50 Ohm
- **Gain:** -3 db half wave dipole
- **Max input:** Receiving only
- **Lighting protection:** DC ground
